

ELECTRIC FOUNTAIN RECORDS ANNOUNCES THE RELEASE OF

michael cavanaugh in color

DESCRIPTION:

Michael Cavanaugh is a charismatic performer, musician and recording artist, made famous in Billy Joel's hit Broadway Musical *MOVIN' OUT*. Michael was hand picked by Billy Joel and received numerous accolades including Grammy and Tony award nominations. **in color** was produced by the Rob Mathes (Panic at the Disco, Avril Lavagine, Celine Dion). Michael hears and sees music in color, hence the title **in color**. The CD features 9 hit songs, which pay homage to rock legends that have influenced Michael over the years: Pete Townshend, Bob Dylan, Billy Joel, The Michael Stanley Band, Joe Cocker/Dave Mason, Led Zeppelin and Big Joe Turner. "With each interpretation, I wanted to bring something new to the tracks yet maintain their original integrity" says Cavanaugh. **in color** also includes four new songs, of which "Miles Away" and "Give It Time" were written by Michael. Our mission in the studio was to capture Michael's talent as an exciting performer and to create a direct connection between the listener and the artist – we feel that the CD captures that intimate connection. Of all the songs he's performed over the years, this collection best represents Michael Cavanaugh the musician, the writer, the performer, and fan of the artist who first performed them. Getting his start at age 7, working his way through the hard scrabble clubs of Cleveland, then on to the Piano Bars of Orlando and Vegas, to his incredible run on a Broadway, these songs represent Michael Cavanaugh a true 'American Artist.' Billy Joel's "She's Got A Way" and Bob Dylan's "Shelter From The Storm" are our featured tracks, which will be worked at radio during the coming months.
